

Logan ADHD

is a 16-year-old student diagnosed with ADHD. Specifically, ODD. Logan can be

defiant, negative, and hostile. He lives with his parents and one younger sister. While riding the

school bus to his out-of-district school his behavior is inconsistent due to changes being

made to his medication. Logan has a tendency to blame others for his actions.

Ricky – Autism / Runner

Ricky is 15 years old. He qualifies for special education with a diagnosis of autism.

He has deficits and limits in speech and language; however, he can communicate verbally if given ample time and encouragement.

When Ricky is agitated he has a tendency to exhibit self-stimulatory verbal and physical behavior. He prefers to ride in the back of the bus where the bus' motion seems to calm him down.

Responds to conflict with a tendency to remove himself from the area.

Kelly – Fetal Alcohol Spectrum Disorder

Kelly is a 13-year old with Fetal Alcohol Spectrum Disorder. Kelly has impaired practical reasoning skills and is unable to understand the results of his/her actions. Kelly often misses social cues and because of his/her eagerness to please, can be easily manipulated by his/her peers. Kelly also has an attraction to strangers and because of this, often does not get along with peers.

Chris – Down Syndrome

Chris is a non-verbal 13-year-old with Down Syndrome. Chris can be impulsive, stubborn, oppositional and get easily frustrated. Chris has a history of wandering off when left unattended, because of this, Chris is in a safety vest. Chris knows very basic sign language such as:

Yes, no, please, thank you, stop, sit and sorry.
